

Ms. Emerson (Emmy) is a lovely gun dog. Her keen desire to hunt does not over-shadow her strong willingness to please. If we're going to a show, Emmy loves to get groomed and is ready to go. Once there she is quick to make the switch into "show dog" mode. She loves the applause and thinks it is all for her. At a field trial she loses the "pretty girl" and becomes a competitor. At home she is friendly and sweet. She will chase squirrels and rabbits in the yard and then come in the house and grab a bone to chew on. Emmy is very easy to live with in our home. She is playful and fun with the other dogs and never gives us any trouble.
